

STATUS OF TEQIP-II

The selection process of AICTE approved Engineering Institutions for TEQIP-II under the Sub-component 1.1 “Strengthening Institutions to improve learning outcomes and employability of graduates” and Sub-component 1.2- “Scaling-up Post graduate Education and Demand Driven Research & Development and Innovation” took place in November 2010. The National Evaluation Committee of NPIU, Noida (National Project Implementation Unit, Noida) evaluated the 33 Institutional Eligibility Proposals (IEPs) for Sub-component 1.1 and 15 Institutional Development Proposals (IDPs) scrutinized by the SPFU (State Project Facilitation Unit) Scrutiny Committee. The Evaluation details of the IEPs and IDPs are listed in the NPIU website <http://www.npiu.nic.in>. The Proposals of Govt. and Govt. aided Engineering Colleges are only considered and Private Unaided Institutions in Tamil Nadu are not considered since State Government is not willing to share the project cost for them.

The MOU (Memorandum of Understanding) between the State and MHRD is yet to be signed and the signing of the MOU between the selected Institutions with the State Government will be afterwards. The implementation of the Project will be from July 2011 onwards.
